# OUR VISION

Education for social change; contributing to the realization of a just, equitable, humane and sustainable society.

# OUR PHILOSOPHY

- Our community of faculty and mentors care for each student.
- We help each student realise their potential and capacity to nurture their dreams.
- We encourage you to think about the world we live in and India's past, present and future.

# ABOUT THE PROGRAMME

Azim Premji University invites applications to its Undergraduate Programmes

**4-year B.A. Honours: Economics | English | History | Philosophy | Social Science**

---

**4-year B.Sc. Honours: Biology | Chemistry | Environmental Science and Sustainability\* | Mathematics | Physics**

---

**4-year B.Sc. B.Ed. dual-degree: Biology | Chemistry | Mathematics | Physics and Education**

The programme is conceived as an educational experience that prepares reflective citizens, capable of meaningful engagement in work and in society. This is a full-time, residential programme.

Azim Premji Foundation, the sponsoring body, set up the University as a fully philanthropic and not-for-profit entity, with a clear social purpose. We offer undergraduate, postgraduate, diploma and continuing education programmes that aim to prepare students with great competence, integrity and social commitment. Our research programmes also further the development of knowledge and education in the same fields.

\*Programme Name/nomenclature may be revised.

# 4-Year B.A. Honours and B.Sc. Honours PROGRAMME STRUCTURE

Full-time residential programme

## DISCIPLINARY MAJOR >

Our curriculum aims to build deep disciplinary understanding, at the same time helping the student explore integrative thinking. Students can choose majors of study from a variety of disciplinary subjects on offer.

You can choose majors for your B.A. Honours degree: Economics / English / History / Philosophy / Social Science

You can choose majors for your B.Sc. Honours degree: Biology / Mathematics / Physics / Chemistry / Environmental Science and Sustainability\*

The courses in a major are divided into required core courses and electives. Core courses include introductory, intermediate, and advanced courses specific to the discipline. Elective courses include courses from the disciplinary major or related disciplines that enhance the understanding of the student.

## OCCUPATIONAL TRACK\* >

The occupational track requires students to opt for an interdisciplinary minor and is aimed to provide both conceptual understanding and the skills to prepare them for the world of work. Students have to opt one of the areas listed below.

**Education / Media and Journalism / Data and Democracy / Sports and Fitness / Climate Studies / Arts**

Note: Courses of occupational track includes Perspectives, Skills, Field immersion and an Integrated vocational internship.

## COMMON CURRICULUM >

The Common Curriculum will introduce students to study the themes and areas that emphasize and build critical and analytical abilities, and sensibilities for dialogue, reflection and cooperative learning.

**Foundations:** Build capacity for critical thinking, reasoning and communication.

**Understanding India:** India's history, society and possible futures

**Creative Expressions:** Explore music, visual art, theatre, dance, martial arts, yoga, pottery, sport, other creative areas.

## FLEXIBLE CREDITS >

All students will have number of courses that they can opt for, which will enable them to craft their own educational experience. These could be to enhance their quantitative reasoning and language skills, supporting courses to broaden their understanding outside their subject major. Students will have the option to take additional courses in their Disciplinary major that will enable them for their further higher studies or careers.

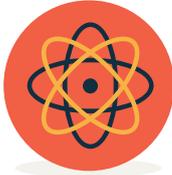

\*Programme Name/nomenclature may be revised.

**Option to pursue Research or Vocational Internship**

# 4- YEAR B.Sc. B.Ed. PROGRAMME STRUCTURE

## 4-YEAR DUAL DEGREE PROGRAMME (B.Sc. B.Ed.)

Full-time residential programme

### SCIENCES

You can choose majors for your B.Sc. degree:  
**Biology | Chemistry | Mathematics | Physics**

### EDUCATION

**Perspectives** - Draw upon the disciplines of philosophy, sociology, psychology, history and linguistics and their descriptions and analysis of educational processes.

**Curriculum, Pedagogy and Assessment** - Develop the ability to design curriculum, create appropriate curricular materials, adopt effective instructional strategies and develop assessments that are relevant.

**Field internship** - Prepare students to understand the different school contexts in India.

### COMMON CURRICULUM

**Foundations:** Build capacity for critical thinking, reasoning and communication

**Understanding India:** India's history, society and future

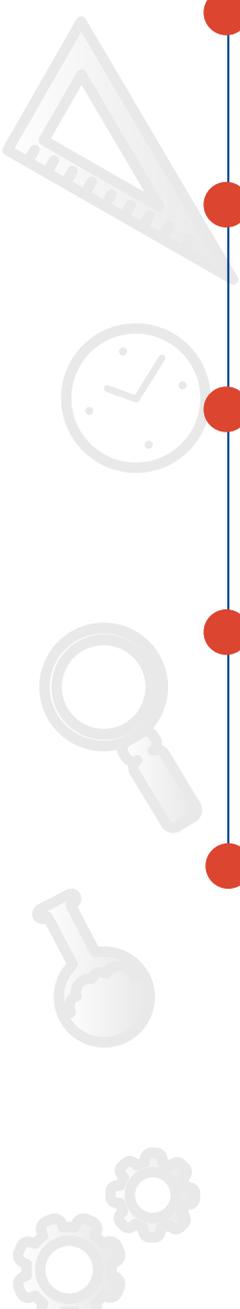

**Creative Expressions:** Explore art, music, craft, theatre, other creative areas

## Semester long field apprenticeship at Azim Premji Foundation

This undergraduate programme will expand your possibilities.  
You will be equipped to become both an excellent scientist and an outstanding science educator.

**Develop disciplinary knowledge in Science/Mathematics and earn a practical and professional degree in Education.**
